

Lake Tyers Fishing Map

Welcome, Lake Tyers has many vantage points for angling and water based activities. Most western access comes in from the Princes Highway. The roads indicated are public access and a broken line indicates they are unsealed. Along any of the roads, conditions can change unexpectedly, take care! Know your vehicle's limitations and drive within them.

BOAT RAMPS

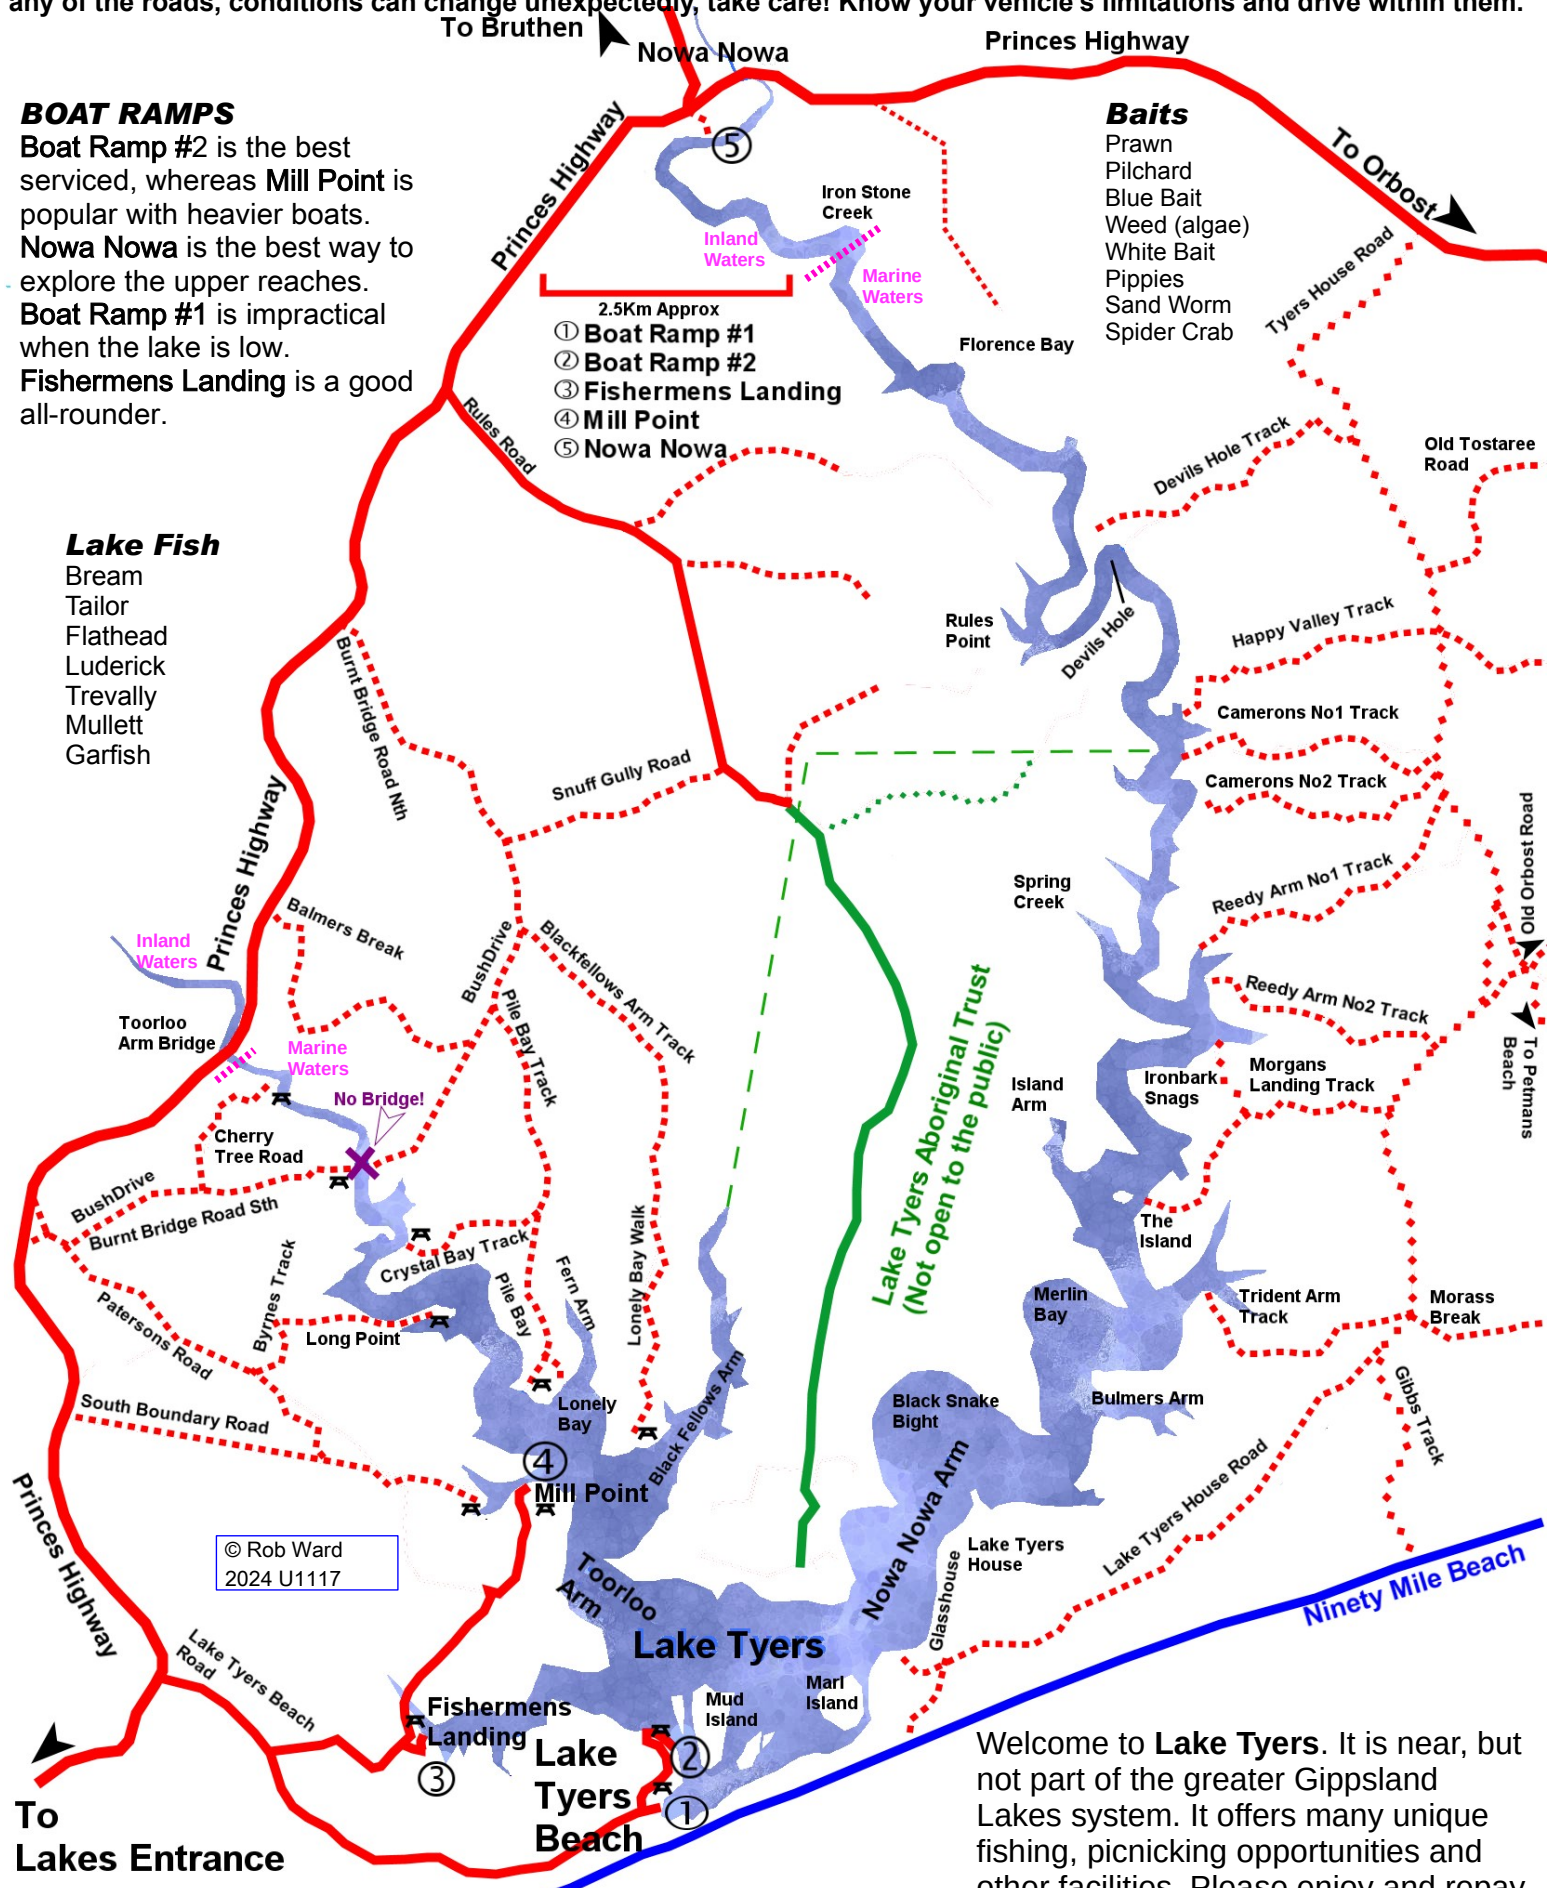

Boat Ramp #2 is the best serviced, whereas Mill Point is popular with heavier boats. Nowa Nowa is the best way to explore the upper reaches. Boat Ramp #1 is impractical when the lake is low. Fishermens Landing is a good all-rounder.
